Art Unit: 2182

**DETAILED ACTION*****Election/Restrictions***

The amendment filed on 04/02/07 canceling all claims drawn to the elected invention 41-44 and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims (43-53) are not readable on the elected invention because the data storage portion stores a particular operating system ("OS"), and a plurality of emulators which make the particular OS operable for a specified computer kind; the electronic circuit includes a data processing portion and a memory storing a list of contents stored in the data storage portion; when the optical disc is attached to the computer, the data processing portion sends the contents list read out from the data storage portion to the computer; and the computer, responsive to receipt of the contents list and a change instruction of the particular OS, when the emulator adapted to the computer kind is included in the computer only the particular OS is read out from the data storage portion, when the emulator adapted to the own computer kind is not included in the computer particular OS and the emulator to be adapted are read out from the data storage portion, and the read out OS, and the read out particular OS and emulator are executed.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the
